We think **short breaks** is important (a priority)

You told us that:

- Short breaks need to be flexible so people have different options

- We also know that we have a lot of people living at home with families and we want to make sure these services meet their needs in the longer term and there are options for people.

The work we plan to do to make this happen is:

- Review the service to make sure we are supporting people to have a good life in Doncaster in the best way
- Making sure our short breaks offer is clear and accessible
- Planning the services we need to develop to support people and their families in the future
- Making sure we are supporting in a way that is right for each person, people with the most complex needs and behaviours that challenge
- Children and adults services working a way that matches one another, and makes transition from children to adults short break services easy
